**NON-SURGICAL
ORTHOPAEDICS, P.C.**
Specializing in Spine Care & Pain Management

Practice News from Non-Surgical Orthopaedics, P.C.

Non-Surgical Orthopaedics, P.C. is one of Atlanta's premier non-surgical orthopaedic practices and an industry leader for the non-invasive treatment of back pain, neck pain and other orthopaedic injuries.

RHEUMATOID ARTHRITIS MYTHS GET DEBUNKED

Most people know what arthritis is and are not anxiously anticipating their first joint pain, stiffness or weakness, but many people do not know the details and symptoms of a specific type of arthritis because it only affects around one percent of the population worldwide.

Rheumatoid Arthritis is defined as a persistent and progressive disease of the joints that causes them to swell, stiffen, weaken and inflame. The condition starts in smaller doses like within hand joints and eventually spreads to larger joints throughout the body. I have provided you with five major myths about a type of arthritis that everyone should know are false.

Prolotherapy

musculoskeletal pain is related to damage, laxity, or weakening of connective tissue, which normally controls joint movement and

Prolotherapy (or Regenerative Injection Therapy) was originally used by Hippocrates over 2500 years ago to help a javelin thrower's shoulder pain. The concept was investigated, utilized, and refined by George Hackett, MD, over 70 years ago, and has been used by many other physicians since, including the former **Surgeon General of the United States, C. Everett Koop, MD.** The cause of a great deal of

We will be offering some exciting new services for our patients soon.

Georgia Institute for Clinical Research, L.L.C

Our [Clinical Research Department](#) is participating in clinical trials for the following conditions:

- Osteoarthritis (hips and knees)
- Low back pain
- Shoulder pain
- Acute and chronic pain
- Opioid induced constipation (OIC)
- Diabetic neuropathy
- Muscle spasms

We currently have a variety of study opportunities for patients and others interested in participating in clinical trials. Typical requirements for participation in these studies include the criteria outlined below:

- Males / Females, ages 18-75
- No diagnosis of cancer within the past 5 years
- No diagnosis of rheumatoid arthritis or gout
- No history of seizure disorder or epilepsy
- No history of gastric bypass surgery
- No corticosteroid injections within past 3 months
- No hyalgan injections within past 6 months
- Willingness to convert current pain relief regimen to an Investigational Product

Please contact us if you are interested in learning more about these clinical research opportunities at 770-421-2030.
