Specializing in Spine Care & Pain Management

Practice News

Non-Surgical Orthopaedics, P.C. is one of Atlanta's premier non-surgical orthopaedic practices and the industry leader for the non-invasive treatment of back pain, neck pain and other orthopaedic injuries.

GOALS FOR 2017

1. Be pain free!
2. Get organized
3. Exercise

What are your goals for 2017? For many of you it is time to find a solution to your chronic pain. Maybe this is the year to give stem cell and PRP injections a try. [Click here to learn more!](#)

An Overview Of Injections For Back Pain

Living with back pain everyday can be difficult and leave you not participating in activities you used to. Not everyone considers surgery and option, which is where our office can help. At Non-Surgical Orthopaedics we are experts in pain relief without going under the knife. Surgery has many risks and often a long recovery time. So if you are suffering with back pain, one of our injections may be a great option for you...

How Athletes Can Benefit From PRP And Stem Cell Therapy

If you are a professional athlete you know how important it is to keep your body at an exceptional level. Minor injuries can sometimes mean the difference in championship games and careers. Surgery is especially devastating for athletes because of the long down time and resting period. This is why more and more Orthopaedic physicians are turning to regenerative stem cell treatments to treat their patients who are also athletes...
