

## Practice News from Non-Surgical Orthopaedics, P.C.

Non-Surgical Orthopaedics, P.C. is one of Atlanta's premier non-surgical orthopaedic practices and an industry leader for the non-invasive treatment of back pain, neck pain and other orthopaedic injuries.

### HOW TO IDENTIFY & MANAGE CHRONIC PAIN

Tens of millions of Americans suffer from chronic pain - pain that lasts longer than six months. Chronic pain can be mild or excruciating, episodic or continuous, merely inconvenient or totally incapacitating. With chronic pain, signals of pain remain active in the nervous system for weeks, months, or even years. This can take both a physical and emotional toll on a person.

The most common sources of pain stem from headaches, joint pain, pain from injury, and backaches. Other kinds of chronic pain include tendinitis, sinus pain, carpal tunnel syndrome, and pain affecting specific parts of the body, such as the shoulders, pelvis, and neck. Generalized muscle or nerve pain can also develop into a chronic condition.

### TREATING SPORTS INJURIES NON-SURGICALLY

Injuries sustained during physical activity are often very painful. But just because you are injured does not mean you need serious, invasive surgery to get better. The expert doctors at Non-Surgical Orthopaedics specialize in non-surgical sports injury treatment. We firmly believe that your body can heal completely with conservative

**Our Doctors are now performing Prolotherapy for acute & chronic pain.**

treatment involving pain management, rehabilitation, exercise, and therapy.

### Pain Management

It's important to see a doctor within 24 to 48 hours of sustaining a sports injury so that treatment can begin right away. In order to start the healing, we first have to control the pain from the injury. This is accomplished through the use of anti-inflammatory medications, muscle relaxants, pain relievers, or holistic injections to the injured area.
